Melanie M. Mills

Certified Speaking Professional, Master's in Education

For more than 22 years, organizations and executives have turned to her for results. And she has delivered. Melanie Mills has lead the way in helping organizations not only reach their goals but also exceed them. She has assisted numerous leaders through the demands of change and uncertainty while diminishing fear and maintaining consistency.

Melanie has accomplished this through a simple focus... the people. She is the unquestionable master at empowering people to reach their full potential. Melanie will help you see how you can transform *fear to freedom, confusion to clarity, and resistance to collaboration.*

Melanie has touched millions in more than 14 countries through her live programs. She has helped thousands to be more effective masters of their lives and businesses. Her past and present clients include both the Fortune 500 as well as mid-level companies. Her partial client list includes 3M Unitek, Starz-Encore, NASA, Hewlett-Packard, AT&T and American Express.

Raised in a community of less than 1000 people in western Nebraska where she drove a combine before a car, Melanie went on to play basketball for Southern Methodist University as one of their first female athletes on a full ride scholarship. She completed a Bachelor of Science at Colorado State University in 1985 and a Masters of Arts in Education from the University of Northern Colorado in 1991.

Being honored as 'Teacher of the Year' in 1990 became the catalyst to move into speaking and consulting on a full time basis. In 1999 Melanie earned the designation of Certified Speaking Professional (CSP) from the National Speakers Association. The CSP designation is the speaking industry's international measure of professional platform skill and held by less than 7% of the membership.

Melanie is also a CDP (Certified DynaMetric Professional), qualified to deliver consulting services and research-based tools from Professional DynaMetric Programs. She uses Professional DynaMetric Profiles to identify employees' natural talents and stress factors, allowing her to provide tools to manage people better, build balanced teams, and anticipate potential problems.

Melanie makes her home in Evergreen Colorado where she is surrounded by the majesty of the Rocky Mountains. On the weekends you will find her on a Colorado trail with friends and four-leggeds romping in the woods.
